## **FIELD TRIP: THE GEOLOGY UNDER OUR FEET**

Join us for a free field trip prior to the  
conference on July 23<sup>rd</sup>.

We will gather at the Hastings Evangelical  
Free Church (2015 North St. Joseph Ave.) at  
1:15 PM. We will travel as a group to a nearby  
gravel pit (about a 25 minute drive) to explore  
the make-up of the Ogallala aquifer.

This field trip will give an appreciation for the  
origin, magnitude, composition, and  
importance of this massive geologic feature  
that has Biblical flood implications.

We will plan to return back at the church by  
4:00pm.

All participants must sign a waiver of liability  
to participate.

## **SPEAKERS**

**Dr. Kevin Horton** practiced veterinary medicine on both large and small animals in the Bitterroot Valley of Montana. He transitioned out of veterinary medicine to plant two churches in Montana and led one as Senior Pastor for 21 years. Most recently, he began full-time as director of the Institute for Biblical Authority in the spring of 2018 and desires to show that the majority of the scientific data strongly supports a solid biblical worldview with no need to compromise on Biblical interpretation.

**Brian Young**, an internationally known speaker and author, is the director of Creation Instruction Association and the Semisaurus Mobile Creation Museum. He has now been speaking on the topic of creation and Biblical authority for 25 years, doing debates at Universities, going into prisons, and sharing at churches, schools and camps around the world. He uses the Bible as the foundation for science and education.

**Dr. David Demick**, has been a pathologist for 37 years. Having slowly been convinced by accumulating evidence that the case for special divine creation is irrefutable, he has gotten involved in creation ministries. He has lately become burdened with the need to show historically that Darwinism is not only bad science, but that it is purely religious philosophy with anti-Christian intent. Dr. Demick has written articles for several creation publications and spoken on creation.
